## **About Reprieve**

Reprieve is a leading international human rights organisation working to end the death penalty and abuses committed under the banner of national security. Founded in 1999, our mission remains critically relevant as governments worldwide increasingly adopt authoritarian tactics, expanding executive power at the expense of civil liberties.

You can best judge a society by how it treats prisoners, criminal defendants, and the far-flung targets of an ever-changing counter-terror policy. To us, the rule of law means little if we selectively apply it to people we agree with. It is for all of us. Liberty is always eroded at the margins

Reprieve's staff is made up of courageous and committed human rights defenders. We provide vital legal and investigative support to those facing execution and victims of rendition, torture, arbitrary detention, extrajudicial killing, and citizenship stripping. Our work spans multiple jurisdictions, challenging states' most egregious human rights violations through strategic litigation, investigations, and advocacy.

We support cases in courts worldwide while building the legal and political momentum necessary to consign these practices to history.

Based in London with Fellows and partners globally, Reprieve operates at the intersection of law, policy, and human rights, working alongside governments, senior legal practitioners, and civil society to advance systemic change.

We collaborate closely with our independent partner organisation Reprieve US.

Reprieve is an equal opportunity employer, and we particularly welcome applicants from Black and minority ethnic communities, members of the LGBTQ+ community, and those with disabilities. Reprieve is committed to fighting racism and advancing racial justice, both in our work and within Reprieve. For more information please see [our Equality, Diversity and Inclusion Statement here](#).
